

Notice of Intent to Sole Source

Posting Date: May 28, 2024

Francis Marion University seeks to sole source the procurement of cable television service for the University.

Current situation:

Francis Marion University purchased TV cable and fiber infrastructure in 2012. Since that time the University has operated under contract with Time Warner Cable / Spectrum Enterprise.

Intent to Sole Source:

Spectrum / TWC has been providing cable service to the University since the cable infrastructure was installed in 2012. A move to a different vendor for television service to the University would require a major investment in new infrastructure before consideration for the cost of service could be made. The University has installed a set of Wireless Access Points in the residence halls complete in the summer of 2023. The University recognizes that student's demands for Wi-Fi have increased; the University is investigating the overall demands of providing alternate means of entertainment without overtaxing the existing Wi Fi provided by the University. The University intends to continue to review its television service options including alternatives to cable throughout the 2024-2025 academic year. The cost for the proposed period of cable service to the University (July 2024 through June 2025) is \$100,234.80.
